The Academy of Careers and Technology (ACT) Educational Resources (including media services, technology facilities, and materials) shall be made available to every student and staff member regardless of race, color, religion, sex, sexual orientation, gender identity, or national origin.

There shall be a variety of current and relevant educational resources made available such as, but not limited to reference books; periodicals and manuals of a business, professional, technical, and industrial nature; audio-visual materials and equipment; internet access; and any other materials deemed necessary for educational purposes.

Each program instructor is responsible for the implementation and coordination of his/her program's educational resources and to insure they meet applicable safety standards, desired outcomes, and learning objectives. Each program instructor is likewise responsible for procuring such materials through proper administrative channels. An educational resource inventory as well as an equipment inventory is to be maintained by each individual program instructor with a copy given to the Director of ACT programs. All necessary repair, maintenance, and/or replacement of educational resources and supplies are made via proper administrative channels such as work or purchase orders.

All staff shall be oriented to new technology educational resources via Raleigh County Technology department upon employment and periodically throughout each school year on the most current and latest technology resource programs. Students shall be oriented to educational resources by program instructors or other such staff members as deemed appropriate and required. Each classroom shall be equipped with bookshelves and adequate space to house such educational resources and equipment.

The Raleigh County Board of Education is responsible for the technical infrastructure. Budgetary support for educational resources and equipment shall be provided through county funds, grant monies, Perkins allocation, and any other revenue sources so made available.

The evaluation and effectiveness of educational resources shall be performed annually by the Faculty Senate members through periodic meetings where such services are scrutinized for educational value, being the most current and up-to-date information, and meets current industry standards in order to modify and improve educational resources. Educational resources such as instructional supplies, physical resources, technology, and fiscal resources are available upon request by each instructional program. ACT's educational resources are available to ensure the achievement of each program's student learning objectives.
